

# THE GOLD STANDARD OF TOURING BIKES

The open road is calling, and it always has been. Humans are just hard-wired to explore, to want to see what's over the horizon. Every motorcyclist knows the feeling. And one motorcycle makes it happen better than any other: the Honda Gold Wing. This year there's some big news about our Gold Wing line too: The "base" Gold Wing now comes with reverse as a standard feature, along with fog lights, a Tire Pressure Monitoring System (TPMS) display that reads out in PSI, and the addition of our Honda Selectable Torque Control (HSTC) system. All five Gold Wing trim levels get updated highlight strips and colors, as well as a navigation-system map update. But the best parts remain—the famously smooth 1833 six-cylinder engine, refined bodywork for weather protection, and ample luggage. Full of innovative engineering, all Gold Wing models are Android Auto™ compatible, as well as offering Apple CarPlay™ compatibility. You can choose between a conventional six-speed transmission and our exclusive Honda automatic seven-speed DCT transmission, depending on the model. So go ahead— isn't it time you experience the gold standard of touring bikes?

ALWAYS WEAR A HELMET, EYE PROTECTION AND PROTECTIVE CLOTHING. NEVER RIDE AFTER CONSUMING DRUGS OR ALCOHOL, AND NEVER USE THE STREET AS A RACETRACK. RESPECT THE ENVIRONMENT WHEN RIDING. Gold Wing® is a registered trademark of Honda Motor Co., Ltd. Apple CarPlay and iPhone are trademarks of Apple Inc. For using Apple CarPlay, connection to a commercially available Bluetooth headset is necessary. See owner's manual for Bluetooth headset requirements. ©2022 American Honda Motor Co., Inc
